To Whom It May Concern:

I have been using the HF27 for about 6 months in my office. I have another therapy unit which requires constant attendance to operate. Your machine has become my primary physiotherapy equipment due to it's ease of use and large area of coverage. A recent patient suffered a reoccurrence of debilitating lower back pain and muscle spasm. In order to resolve the previous episode he required many months of physical therapy involving muscle stimulation and ultrasound. In my office (using the HF27) his condition was completely resolved within 3 weeks and a total of 10 treatments.

Sincerely,

Andrew R. Heath, D.C.
